

McNeil Homes, Inc.

Builders of Exceptional Homes

McNeil Homes, a quality custom home builder with 24 years experience, is proud of its reputation as a top-notch builder. Cary L. McNeil started in the building business as a framing carpenter at the age of 16, was a lead carpenter by the age of 19, and built his first home at age 23. Learning the trade from the ground up, means that Cary is a hands-on builder, supervising the jobs himself.

McNeil quality custom homes feature hardwood floors, custom cabinetry, highly detailed wood trim, Andersen windows, all brick exteriors and decorative concrete. The detail of the homes, with the exquisite trim work, the quality masonry work, and the polish of the finished product reflect McNeil Homes' superior team of artisans and craftsmen. McNeil Homes offer design services to plan your new home, or you can choose from our existing floor plans.

To meet the unsatisfied demand for custom quality at a more affordable price, McNeil Patio Homes, LLC was launched in early 2011, offering homes starting as low as \$130,000, with the same exceptional attention to detail that the clients of McNeil Homes have come to expect. These homes are being featured as paired patio homes from the \$130's in Stone Village, and as single, full brick custom homes from the \$250's in the gated community of Hickory Estates.

Style, comfort, value, security and the unmatched commitment to your personal satisfaction... these are the hallmarks McNeil Homes.
