

BRUNS BUILDER

CUSTOM HOMES

For more than 43 years Bruns Builder has been dedicated to creating Quality Custom Homes designed with memorable and time enduring interior and exterior detailing.

Listening to input and direction from each customer is what helps Bruns Builder and our full time staff achieve complete customer satisfaction, pride of ownership, and repeat customers, as well as referrals.

Patience, pride and determination not to lower standards or quality have earned us the reputation of leading and well-respected Indiana home builder.

You will be working one on one with an owner in each step of the building process. We feel this extra attention helps eliminate mistakes and misunderstandings during lot selection, homes design, construction, and the final walk-through. This also helps reduce the time it takes to construct a home.

All of the homes Bruns Builder create are in compliance with the Builders Association of Greater Indianapolis Quality Assurance Program.

Our portfolio of homes includes a very wide selection of exceptional floor plans with dynamic exteriors.
